

## IRA RECORDINGS AVAILABLE TO WATCH

1. **Built Environment Plus** (Dec. 3, 2022) - [Making “Cents” of Incentives: Using Revamped MassSave Incentives and IRA Tax Credits to Meet Ambitious Climate Goals](#)

Are you unsure about how Inflation Reduction Act renewable, electrification, and efficiency tax credits will impact your community’s building and renovation projects? Do you have the feeling that Mass Save offerings have evolved but haven’t heard about their new incentives and heat pump adders? Then this is the workshop for you. Discover the details and then learn how the Town of Lexington is actively layering them to build two Net Zero schools, among the first in Massachusetts. And learn how utilities are upgrading the grid to meet projected demand.

2. **MassEnergize** (Nov. 14, 2022) - [Working Together to Leverage the Inflation Reduction Act](#)

Aimee Powelka presents an overview of the IRA and corresponding state program incentives (Mass Save, MOR-EV, etc.). MassEnergize Community of Practice discusses updates to residential opportunities for clean energy action.

3. **Elders Climate Action** (Nov 8, 2022) - [The Inflation Reduction Act](#)

Larry Chretien of Green Energy Consumers Alliance provides a rundown of incentives for solar, heat pumps, electric cars, and more.

4. **Jewish Climate Action Network** (JCAN, Oct 12, 2022) - [Now this Changes Everything: How Decarbonization for Synagogues and Congregants will be Accelerated by New Legislation](#)

Rachel White moderated a panel of experts reviewing how new federal and state legislation will accelerate decarbonization for congregations (and other non-profits including municipalities) and individuals. The webinar covered incentives for solar, heat pumps and electric vehicles. (content begins at 08:00 minutes)
